

## **TRINITY SPEAKS.... History**

Trinity” stands for the triune God – the Creator, the Redeemer and the Sustainer. God the Father of all, gave a vision to Ms. Yeong Je Kim from South Korea when she came to Tamil Nadu in the 1980’s as a student in Stella Maris College, Chennai, about the need for providing quality education in rural India. Miss. Kim, chose Krishnagiri which then belonged to the erstwhile Dharmapuri District. This district was generally considered as one of the most backward districts of Tamil Nadu, as it had poor ratings in all the Human Development Indicators as per the UNDP data for 1990. Given below are some indicators about Dharmapuri district which moved Ms.Kim’s compassionate heart to take some remedial action for its development. As education is a key agent of social transformation, Ms.Kim looked at the educational statistics of this district and found that the dropout rate at standard V level was the highest in the state at 21.93% and at 43.55% at middle school level. So she was motivated to start a school with very good infrastructural facilities and well qualified staff. Thus came about the founding of Trinity Matriculation School in 1994 which is a unit of Trinity Service Trust. Today in 2019, the school stands as a witness to what one dedicated person as Kim Amma can do to transform thousands of lives.

The primary goal of education is intended to be “**Love and Serve**“. Trinity Academy was added in the year 2010.

### **Our Mission**

To promote skills of thinking, problem solving and creativity will be the core mission. Values such as justice, equity, spirit of democracy, respect for and preservation of Tamil culture and environment, empowerment of women, compassion for deprived and disadvantaged are aimed to be inculcated while preparing them for a purposeful and enriching professional life.

### **Our Vision**

To develop leaders, thinkers and troubleshooters through the medium of scholastic and co-scholastic excellence, which mould personality and help the students to be productive in the areas of their interest and aptitude so as to enable them to be change agents and participate in community development and nation building.
